

NBTY CORPORATE REFERENCE GUIDE

Internal Reference & Company Overview Edition

1. Introduction to NBTY (The Bountiful Company)

NBTY, currently known as The Bountiful Company, is a prominent American dietary supplement company dedicated to global health and wellness.

- **Founding:** The company was founded in 1971 by Arthur Rudolph as a mail-order business named Nature's Bounty.
- **Name Changes:** It changed its name to NBTY, Inc. in 1995, reverted to The Nature's Bounty Co. in 2016, and officially became The Bountiful Company in January 2021.
- **Headquarters & Workforce:** The company is headquartered in Ronkonkoma, New York, and employs approximately 13,000 people.
- **Current Ownership:** In 2021, Nestlé acquired the majority of the company's core brands for \$5.75 billion.

2. Core Brands and Product Lines

The company oversees a vast portfolio of nutritional products aimed at prevention, maintenance, and overall wellness.

- **Nature's Bounty:** The flagship brand provides quality supplements, including multivitamins, probiotics, and products designed to help hair, skin, and nails look their healthiest.
- **Additional Core Brands:** The wider corporate portfolio includes well-known brands such as Solgar, Puritan's Pride, Osteo Bi-Flex, Ester-C, and Sundown.
- **Targeted Health Expertise:** The company focuses on specific areas of expertise, including Active Lifestyle & Wellness, Healthy Aging, Hydration, Mental Performance, and Muscle, Bone & Joint Health.

Note on Brand Strategy: The diverse brand portfolio allows NBTY to capture varied demographic segments, from budget-conscious consumers to premium wellness enthusiasts.

3. Manufacturing and Quality Assurance

NBTY maintains a massive presence in the vitamin and supplement manufacturing sector, prioritizing safety and regulatory compliance.

- **Quality Control:** Products are closely overseen by a team of scientists, manufacturing specialists, and quality experts.
- **Ingredient Standards:** The company utilizes ingredients from suppliers that meet rigorous Quality Assurance Standards and GMP (Good Manufacturing Practice) supplement quality standards.
- **Microbiological Testing:** Initial ingredients and final products are tested in microbiological laboratories to ensure they are pure and free of harmful bacteria.
- **Auditing:** Company manufacturing facilities have been successfully audited by the United States Pharmacopeia.

4. Corporate History and Acquisitions

Throughout its multi-decade history, the company has experienced significant growth through strategic private equity acquisitions and corporate investments.

- **2010 Buyout:** The Carlyle Group acquired the publicly traded company for \$3.8 billion.
- **Revenue Milestone:** As of 2015, the company reported massive total sales reaching \$3 billion.
- **2017 Stake Sale:** The Carlyle Group sold a majority stake in the organization to the investment firm Kohlberg Kravis Roberts (KKR).
- **Strategic Expansion:** Over the years, the company expanded its global footprint by acquiring specialized brands, including Dr. Organic and Balance Bar.

5. Sales Channels and Market Share

The company operates across multiple sales channels to distribute products to a global consumer base.

- **Industry Footprint:** In the United States, the company accounts for an estimated 1.8% of the total revenue in the Vitamin & Supplement Manufacturing industry.
- **Sales Divisions:** Revenue is historically driven through various divisions, including a Consumer Products Group, Holland & Barrett International, and Direct-to-Consumer channels.
- **Distribution:** Consumers can access products heavily through major online healthcare platforms, national drug wholesalers, and drugstore chains across the United States.
